*Depicts minimum channel carrying capacity across states

Note: *We are in process of introducing 4K transmission and introducing more HD channels which shall further reduce the SD capacity across the network.*

Explanation:

- a. 1 HD Channel = 2 SD channels (as prescribed by TRAI)
- b. 1 4K Channel = 4 HD Channels
- c. Channel carrying capacity may vary from time to time depending on geography and subject to availability of link and technical feasibility.

C. List of channels available on the network: -
<https://denetworks.com/upload/subscribe/Broadcaster-channels.pdf>

D. Number of channels for which signals of television channels have been requested by the distributor from broadcasters and the interconnection agreements signed- NIL

E. Spare channel capacity available on the network for the purpose of carrying signals of television Channels: - NIL

F. List of channels, in chronological order, for which requests have been received from broadcasters for distribution of their channels, the interconnection agreements have been signed and are pending for distribution due to non-availability of the spare channel capacity :- NIL
